☐ Excellence and Curiosity

- We strive for the highest standards of integrity, and intellectual and creative excellence. We seek new knowledge and practical impact, in service to the nation and the world.
- We prize originality, ingenuity, honesty, and boldness. We love discovery and exploration, invention and making. We delight in the full spectrum of human wisdom.
- Drawing strength from MIT's distinctive roots, we believe in learning by doing, and we blur the boundaries between disciplines as we seek to solve hard problems. Embracing the unconventional, we welcome quirkiness, nerdiness, creative irreverence and play.
- We accept the risk of failing as a rung on the ladder of growth. With fearless curiosity, we question our assumptions, look outward, and learn from others.

☐ Openness and Respect

- We champion the open sharing of information and ideas.
- Because learning is nourished by a diversity of views, we cherish free expression, debate, and dialogue in pursuit of truth – and we commit to using these tools with respect for each other and our community.
- We strive to be transparent and worthy of each other's trust – and we challenge ourselves to face difficult facts, speak plainly about failings in our systems, and work to overcome them.
- We take special care not to overlook bad behavior or disrespect on the grounds of great accomplishment, talent, or power.

☐ Belonging and Community

- We strive to make our community a humane and welcoming place where people from a diverse range of backgrounds can grow and thrive – and where we all feel that we belong.
- We know that attending to our own and each other's wellbeing in mind, body, and spirit is essential. We believe that decency, kindness, respect, and compassion for each other as human beings are signs of strength.
- Valuing potential over pedigree, we know that talent and good ideas can come from anywhere – and we value one another's contributions in every role.
- Together we possess uncommon strengths, and we shoulder the responsibility to use them with wisdom and care for humanity and the natural world.
